

Client's Name: The Puerto Rico Aqueducts & Sewer Authority (PRASA)
Budget: \$17,890,642.00
Final termination date: May 30, 2010 (Delivered)
Services: Inspection

Project Name: Construction of Sanitary Sewer System Culebra, Phase II

The best **Construction** Management
Partner in Puerto Rico...

Scope:

The Puerto Rico Aqueducts & Sewer Authority (PRASA) are constructing new sanitary sewer system for the municipality Island of Culebra. This system combine two (2) types of sewer system: gravity and vacuum. This systems discharge the sewer water to a combined pump station. This station transfer the sewer water to a secondary auxiliary station through a force line. Then this station will transfer the sewer water to a Treatment Plant (PAS), constructed in phase I, through another force line.
