

## **Design - 006**

### **Client**

**Municipal Government of Juncos**

### **Cost**

**\$30,000,000.00**

### **Project Name**

**Nuevo Estadio de Soccers Juncos**

### **Description**

**This project was born of a genuine purpose to provide adequate areas for the practice and enjoyment of football in the municipality of Juncos, Puerto Rico. For this reason, we design a soccer stadium for 6,500 people in his first phase and a total of 15.800 spectators spaces in his final phase. It's a product that guarantees the municipality of Juncos the host of the most modern, sophisticated and complete stadium. For the people of Puerto Rico becoming the first national football stadium endorsed by FIFA. Our architectural design includes the four most decisive aspects features and unique to this type of project: playground, bleachers for the public, architectural character and programming support.**
